Dear Brothers and Sisters in Christ,

In celebration of the Most Holy Body and Blood of our Lord here is an article that talks about a Eucharistic Miracle. These miracles are published to assist the faithful strengthening their belief in what the Church already teaches about the Real Presence of Jesus in the Sacrament of the Eucharist.

Physician Tells of Eucharistic Miracle of Lanciano

Edoardo Linoli Verified Authenticity of the Phenomenon

ROME, 5 MAY 2005 (ZENIT)

Dr. Edoardo Linoli says he held real cardiac tissue in his hands, when some years ago he analyzed the relics of the Eucharistic miracle of Lanciano, Italy.

The phenomenon dates back to the eighth century. A Basilian monk, who had doubts about the real presence of Christ in the sacred species, was offering Mass, in a church dedicated to St. Legontian in the town of Lanciano.

When he pronounced the words of the consecration, the Host was miraculously changed into physical flesh and the wine into physical blood.

Later the blood coagulated and the flesh remained the same. These relics were kept in the cathedral.

Linoli, a professor of anatomy and pathological histology, and of chemistry and clinical microscopy, and former head of the Laboratory of Pathological Anatomy at the Hospital of Arezzo, is the only doctor who has analyzed the relics of the miracle of Lanciano. His findings have stirred interest in the scientific world.

At the initiative of Archbishop Pacifico Perantoni of Lanciano, and of the provincial minister of the Franciscan Conventuals of Abruzzo, and with authorization from Rome, in November 1970 the Franciscans of Lanciano decided to have the relics examined scientifically.

Linoli was entrusted with the study. He was assisted by Dr. Ruggero Bertelli, retired professor of human anatomy at the University of Siena.

Linoli extracted parts of the relics with great care and then analyzed the remains of "miraculous flesh and blood." He presented his findings on March 4, 1971. His study confirmed that the flesh and blood were of human origin. The flesh was unequivocally cardiac tissue, and the blood was of type AB.

Consulted by ZENIT, Linoli explained that "as regards the flesh, I had in my hand endocardium. Therefore, there is no doubt at all that it is cardiac tissue." To be continued next week...

Sincerely in the Real Presence of our Lord in the Eucharist,

Father Scott

THEOLOGY ON FIRE!

Join us at the Shrine of the Little Flower in Nasonville, Rhode Island, for **Theology on Fire!** Theology on Fire is a lecture series for young adults which meets the second Friday of every month from April to November.

Young adults ages 16-35 are welcome to join us for a lecture around a fire in the outdoor shrine. Following the lecture, Adoration is held. Finally, the group closes the night by meeting in the Church hall for pizza and community. Don't miss out on this opportunity to meet young Catholics from across New England and to grow closer to Christ in community with them!
